From: Lt Jason Boust

Subject: Sole Source status for Axon (BWC)

The purpose of this memorandum is to designate Axon as Sole Source Vendors for the Axon BWC and equipment. Axon is the sole supplier of their BWC platform. There are suppliers that sell individual cameras and accessories but we have been using Axon Cameras since the inception of our program and we are able to get bundled pricing, free equipment upgrades, and use them for the storage of the vast amounts of data we compile by dealing with them directly. We would need to use them anyway for the storage and by purchasing the hardware and storage together we are able to get free upgrades on cameras, docking stations for download, and tech support.

The Fresno District Attorneys office is linked to the AXON system in order to review videos and obtain evidence from our downloads.
