CODE ENFORCEMENT

Kim Jones, Code Officer

To: All Vendors

Subject: Fire Safety for Booths, Floats or Similar Uses or Effects

Food, Arts & Crafts Booths, or Floats

1. **All** Materials used to construct and decorate booths or floats, that is 1/8" thickness or less, **must** be fire retardant treated material or be non-combustible. No lightweight paper (butcher paper), untreated cardboard, or plastic is permitted. All hay bales **must** be treated with fire retardant. Bring all product packaging and all empty containers of fire retardant to show to the Fire Prevention Officer to prove that it has been treated.
2. **All motorized floats (any floats that are motorized or driven/pulled by a motor vehicle or any motor vehicle that has decorations) and/or if you run a generator, have lights, electrical, or any other heat source you must have a minimum of a commercial grade 5 lbs. 2A-10BC fire extinguisher that has either been purchased or serviced within the past year. You must show that it has been serviced or purchased within the past year by providing a receipt or inspection tag with the extinguisher. And must be accessible to people riding on the float.**
3. All booths where food is being cooked and/or where you use a generator, barbeque, propane cylinders, lanterns, any open flame, electrical, or any other heat source **must** have a minimum of a **commercial grade 5 lbs. 2A-10BC fire extinguisher that has either been purchased or serviced within the past year. You must show that it has been serviced or purchased within the past year by providing a receipt or inspection tag with the extinguisher.**
4. **All** electrical must be heavy-duty cords with an electrical ground.
5. All cooking appliances must be UL approved and listed appliances and must be inspected. Portable LPG fuel tanks shall be located outside enclosed booths. Generators shall be located a safe distance away from the booth. **DO NOT STORE GAS CONTAINERS NEXT TO THE GENERATOR.**
6. All booths shall display their business license (if applicable).
7. Fresno County Health Department requires all food booths where unpackaged foods are used or if you use any utensils to have a 3-compartment sink with hot and cold running water, an enclosed unit or a screened-in tent, and a hand washing facility in their booth.

Please follow all rules carefully, and be ready for the Fire Inspector. If you have any **fire regulation questions** call the Sanger Fire Department at (559) 875-6568, or Sanger Fire Prevention/Code Enforcement at (559) 876-6369, for fire regulation questions only please.
