

Reduce mosquitoes and mosquito bites with two easy steps.

STEP 1.

Eliminate Mosquito Production:

Dump and drain any container holding water at least once per week.

Cover all yard drain tubes with window screen or add a drain tube foam insert.

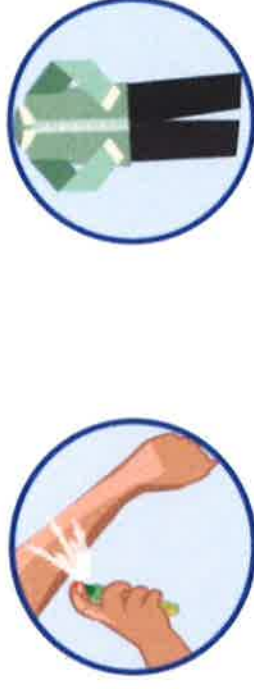

Curb-side drains

*Buy "drain tube foam insert" online

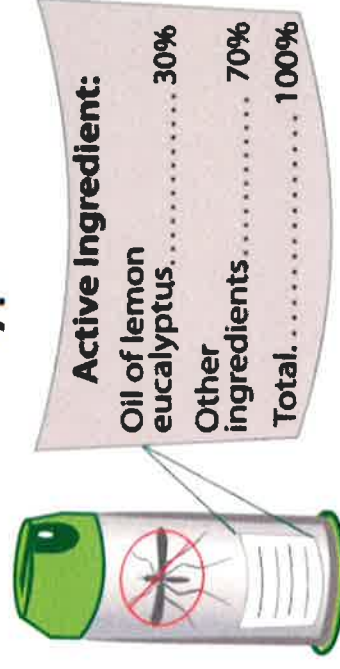

STEP 2.

Protect Yourself:

Use insect repellent Cover skin

Look for one of these Active Ingredients: DEET, Picaridin, or Oil of Lemon Eucalyptus.

According to the CDC, higher percentages of active ingredient provide longer protection.

**All it can take is one mosquito bite to transmit West Nile virus!
Keep yourself and your family safe this summer.**
